# ChatGPT Account Setup

1. Visit the OpenAI website at <https://openai.com> and click on "Sign up" on the top right corner of the page (or use the QR code to the right).

2. On the signup page, you will be asked to provide your email address and create a password. Alternatively, you may also have the option to sign up using your Google account, or other social media accounts if these options are available.

A screenshot of the "Create your account" form. The form has a title "Create your account" and a note: "Note that phone verification may be required for signup. Your number will only be used to verify your identity for security purposes." Below the note is an input field for "Email address" and a green "Continue" button. Underneath, there is a link "Already have an account? Log in" and the word "OR". Below "OR" are three social media login options: "Continue with Google", "Continue with Microsoft Account", and "Continue with Apple".

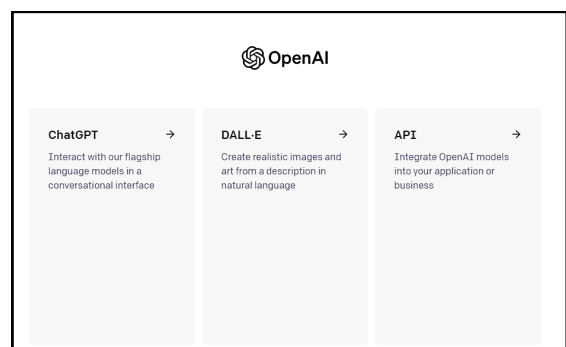

3. You'll be requested to provide the following information:

- First Name
- Last Name
- Birthday
- Phone Number

If you choose to sign up with a social media account, you will be asked to authorize OpenAI to access your basic profile information.

A screenshot of two forms side-by-side. The left form is titled "Tell us about you" and has input fields for "First name", "Last name", and "Birthday", followed by a green "Continue" button. Below the button is a small disclaimer: "By clicking 'Continue', you agree to our Terms and acknowledge our Privacy policy". The right form is titled "Verify your phone number" and has a dropdown menu, a text input field containing "+1 (415) 123-4567", and a green "Send code" button.

4. After creating your account, you can log in and start using ChatGPT and other OpenAI services.

# ChatGPT – Prompt Engineering

## Exercise: Problem Statement

**"I want to surprise my partner with a birthday party"**

I want you (ChatGPT) to act as ...  
I will provide/describe the ...  
You will ...  
My first request is...

---

---

---

---

## Exercise:

**"I want to surprise my partner with a birthday party"**

1. Create your own prompt for the problem statement following this format:

I want you (ChatGPT) to act as ...  
I will provide/describe the ...  
You will ...  
My first request is ...

2. Share your answer through **Poll Everywhere**
  - Scan to access.
  - Or Text TECULTURE to 22333.
  - Or go to [PollEv.com/teculture](https://PollEv.com/teculture).

# ChatGPT Plugins

## Top 5 ChatGPT Plugins for Agile Teams

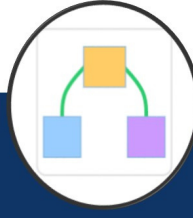

### BrowserPilot

Helps agile teams by allowing them to input webpage links and gather key information such as content, titles, links, and metadata. It aids in quality assurance by identifying issues in webpages and PDFs.

### Zapier

Automates tasks, connects apps, and streamlines workflows for agile teams, improving productivity and efficiency.

### Show me Diagram

Enhances Agile team collaboration by creating clear visualizations of workflows and system architectures.

### Voxscript

Empowers agile teams with efficient information retrieval from YouTube, financial data sources, and Google search, enhancing research and workflows

### DailyBot

Supports Agile teams with automated standups, asynchronous communication, project tool integration, and analytics reports.

# How will our Scrum roles and events change?

## The Scrum Framework

## Exercise: Create a prompt that will provide value to you

1. Pick your team from the following list: Product Owner, Scrum Master, Team, Sprint Planning, Daily Scrum, Sprint Review, Sprint Retrospective, or Product Backlog Refinement.
2. Brainstorm and create different ChatGPT prompts that can help each of the Scrum roles with their responsibilities or can help facilitate the Scrum events better.
3. Pick a presenter for each team and share your results.

10-minute  
Exercise!
